**SAFE AT LAST.**

No More Explosions!

Greenough's Carbonic Acid Gas,

Non-Explosive Burning Fluid.

HAVING purchased the exclusive right to manufacture and compound, for Tiffin and vicinity, a new oil for safe use at trifles cost, which I have now in most of the New England towns, and which has been used with great success, and has undergone no investigation before its introduction, I can assure you that it is safe, and will not explode under any circumstances. It is made from the purest Fuel Oil, and has tested its merits in the presence of many citizens, and has been adopted by the Fire Department of Tiffin, and by many others. All the prominent men of the town are anxious to have it.

**Safe and Brilliant Light!**

To those who have been compelled to burn oil, or the like, for the light of their houses, I say, burn oil, or the like, for the light of your houses, and let me assure you that the article I recommend is REALLY NON-EXPLOSIVE, and may be used without the slightest risk of explosion. It is used in the lampesque burning fluid.

Price, 10 cents per gallon, or 20 cents a quart.

It is sold at the drug stores of J. P. MARQUARDT, on Market street, 2 doors below the Davis House, Tiffin.
